The Famed Solengo Brochure

We posted this yesterday but it's not available through our old link (nor is it on [FT Alphaville](#), or [Naked Shorts](#), where it was previously...fishy indeed). So we're putting it up again as an easy to view image file. No downloading necessary. See

especially: "Each fund contains margin restrictions and maximum capital restrictions to prevent serious liquidity and contagion risks from arising" and "Violation of restrictions eliminates ALL capital locks for investors in the fund," p.2. Though the pictures are our favorite parts, particularly the one of the flames, also p. 2 ("Our fund is on FIRE!"? "Investing in our fund will be like putting your money in a paper bag and lighting it on fire"? These things are so subjective).

Warning: This may blow up your browser to an unmanageable size but otherwise the files are rendered illegible. Forgive this formatting faux-pas.)

interesting that the address for Solengo in Calgary is near a strip mall a fair ways out from the city centre (ie. where the financial energy centre is located).

Keeping a low profile does not (normally) involve driving a Bentley around Calgary.

Kind of like having the jet take you from the Upper East Side to Wall St. every morning.
